

## Chemistry Experimental Course (College of experimental training program materials)

Filesize: 3.08 MB

### Reviews

*This publication is definitely worth purchasing. it was actually written really completely and beneficial. Your life span will likely be change once you total reading this article pdf.

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 278 Publisher: metallurgy Industrial Pub. Date :2009-03-01 version 1 2009-03-01 1st printing in this experiment and training materials for the higher education planning materials. Choice of content in the experiment. In ensuring that students master certain basic skills in chemical experiments. the basic method. based on reducing the validation experiments. an increase of preparation. purification. testing. experiments. and comprehensive and designed experiments. Appropriate pilot projects to join the same experiments in different experimental methods. joined the micro-experiments and simulation experiments. some experiments also with the teachers in scientific research. The total material consists of three parts: the first is basic knowledge of chemistry experiments. experiments mainly introduces the basic knowledge of chemistry and basic operating techniques; experimental part of the second part. a total of 48 experiments. Contents: Introduction First. the significance of two chemical experiment. the purpose of three chemical experiments and chemical methods of learning four experiments. experimental examples of the first part of the report format basic knowledge of chemistry experiments in Chapter 1 the basic knowledge of a chemical laboratory. laboratory rules 2. experimental Safety Chapter 2 the basic technique a chemical experiment. the washing and drying apparatus used two commonly used methods of heating equipment and its use three measure liquid volume and the use of four instruments. reagents and methods of access to five solids dissolution. evaporation. crystallization and solid-liquid separation six. weighing seven. the use of basic measuring instruments Chapter 3 of the second part of the experiment chemistry experiments chemistry Experiment 1 Experiment 2 Determination of thermal effects of gas density determination of the molecular weight of carbon dioxide experiment 3 Determination of freezing point lower molecular weight of...
