McGraw-Hill Education - Europe, United States, 2011. Paperback. Book Condition: New. 226 x 155 mm. Language: N/A. Brand New Book. Overview Productivity, our value-add, must be measured as a whole. What do we, as living beings in this world, add in terms of value to our world? With this thought-provoking note, Asia's productivity guru Michael Podolinsky sets the tone for a holistic, insightful, and refreshing approach of integrating passion into a productivity-driven world to help readers to develop productivity in the context of building steady relationships and finding inner peace and contentment. Features: The author shares his invaluable techniques and tips on how to: plan and monitor lifelong goals; prioritize effectively; get time-wasting peers into one's system; handle everyday energy-draining distractions at work; drive career to the top; attain work/life balance; use stress in advancing career in a healthful way; reconnect with their true passions in life; and own a more successful future. In this book, the author introduces his proprietary ACTS-IM Goal Attainment Model[trademark] and ABCDE Priority System[trademark] as well as address areas rarely covered in a business book, such as faith (not religion) and success defined in terms of being at peace rather than in financial terms. The book is filled with practical, concrete and easy strategies for winning in life.
