Reviews

This publication will be worth purchasing. It really is written in simple terms instead of difficult to understand. It's been designed in an exceptionally simple way and is particularly only right after I finished reading this ebook in which basically modified me, alter the way I believe.

Lulu.com, United States, 2014. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Dr. Max Manwaring wrote this monograph in response to the fact that today over half the countries in the global community are faced with one variation or another of asymmetric guerrilla war. Insurgencies, internal wars, and other small-scale contingencies (SSCs) are the most pervasive and likely type of conflict in the post-Cold War era. That the United States will become involved directly or indirectly in some of these conflicts is almost certain. The Balkans, Colombia, Mexico, Somalia, and the Philippines are only a few cases in point. Yet, little or no recognition and application of the strategic-level lessons of the Vietnam War and the hundreds of other smaller conflicts that have taken place over the past several years are evident.
